PROBLEM STATEMENT:

Generally, NEWS is an essential one where every person can know what's happening all over the world. The full form of "NEWS" is **North East West South.** Long days ago, NEWS can be viewed only through televisions and heard using radios. To make everyone's time and work easier it came into evolution as an application named "NEWS TRACKING APPLICATION" in which we can read or hear NEWS wherever and whenever we want.

SAYS

Passionate leaders use feedly on their phones to follow blocks.

Your central place organize read and share the information.

You need to stay ahead of the next big trend in your industry.

It is the destination for breaking news and events from all over world.

THINK

Safety starts in understanding how developers collect and share informations.
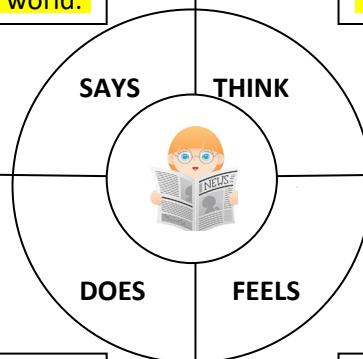

It makes an incredible job placing all the information together.

The app loads fast and offers a simple and clean reading experience.

It allows readers to find their own stories in the data.

DOES

It can feed headlines and bylines are displayed when user open the application.

It provides audio book like feature of google assistant to discover the news.

Data privacy and security practices may vary based on your use and region.

The app also offers integration with Facebook, Twitter, LinkedIn, etc,..

FEELS

It's great to be able to keepup the date on my favourite news. It is used to update myself.

It seems to be a ad- free and free of the software is available to use.

I can enjoy my life being distraction free and up to date with your interest in the same time.

It is very good, fast, and easy to choose sources whatever I want. It is flexible to use.
